YOUR LIVING SPACE

AN ODE TO DESIGN HARMONY

The effort is to design something with great aesthetics that blends into its environment. Our design makes the inside space open out to the outside in a way that is seamless and making it feel like there are no boundaries between your home and what lies beyond.

BUILT FOR YOUR IMAGINATION

Tall ceilings, full height sliding windows, no columns in the middle of floors and only 2 apartments per floor with separate staff, service and utility areas, our spaces reveal the core principles of our design philosophy; exclusivity and personalization

PRIVATE WFH STUDIO

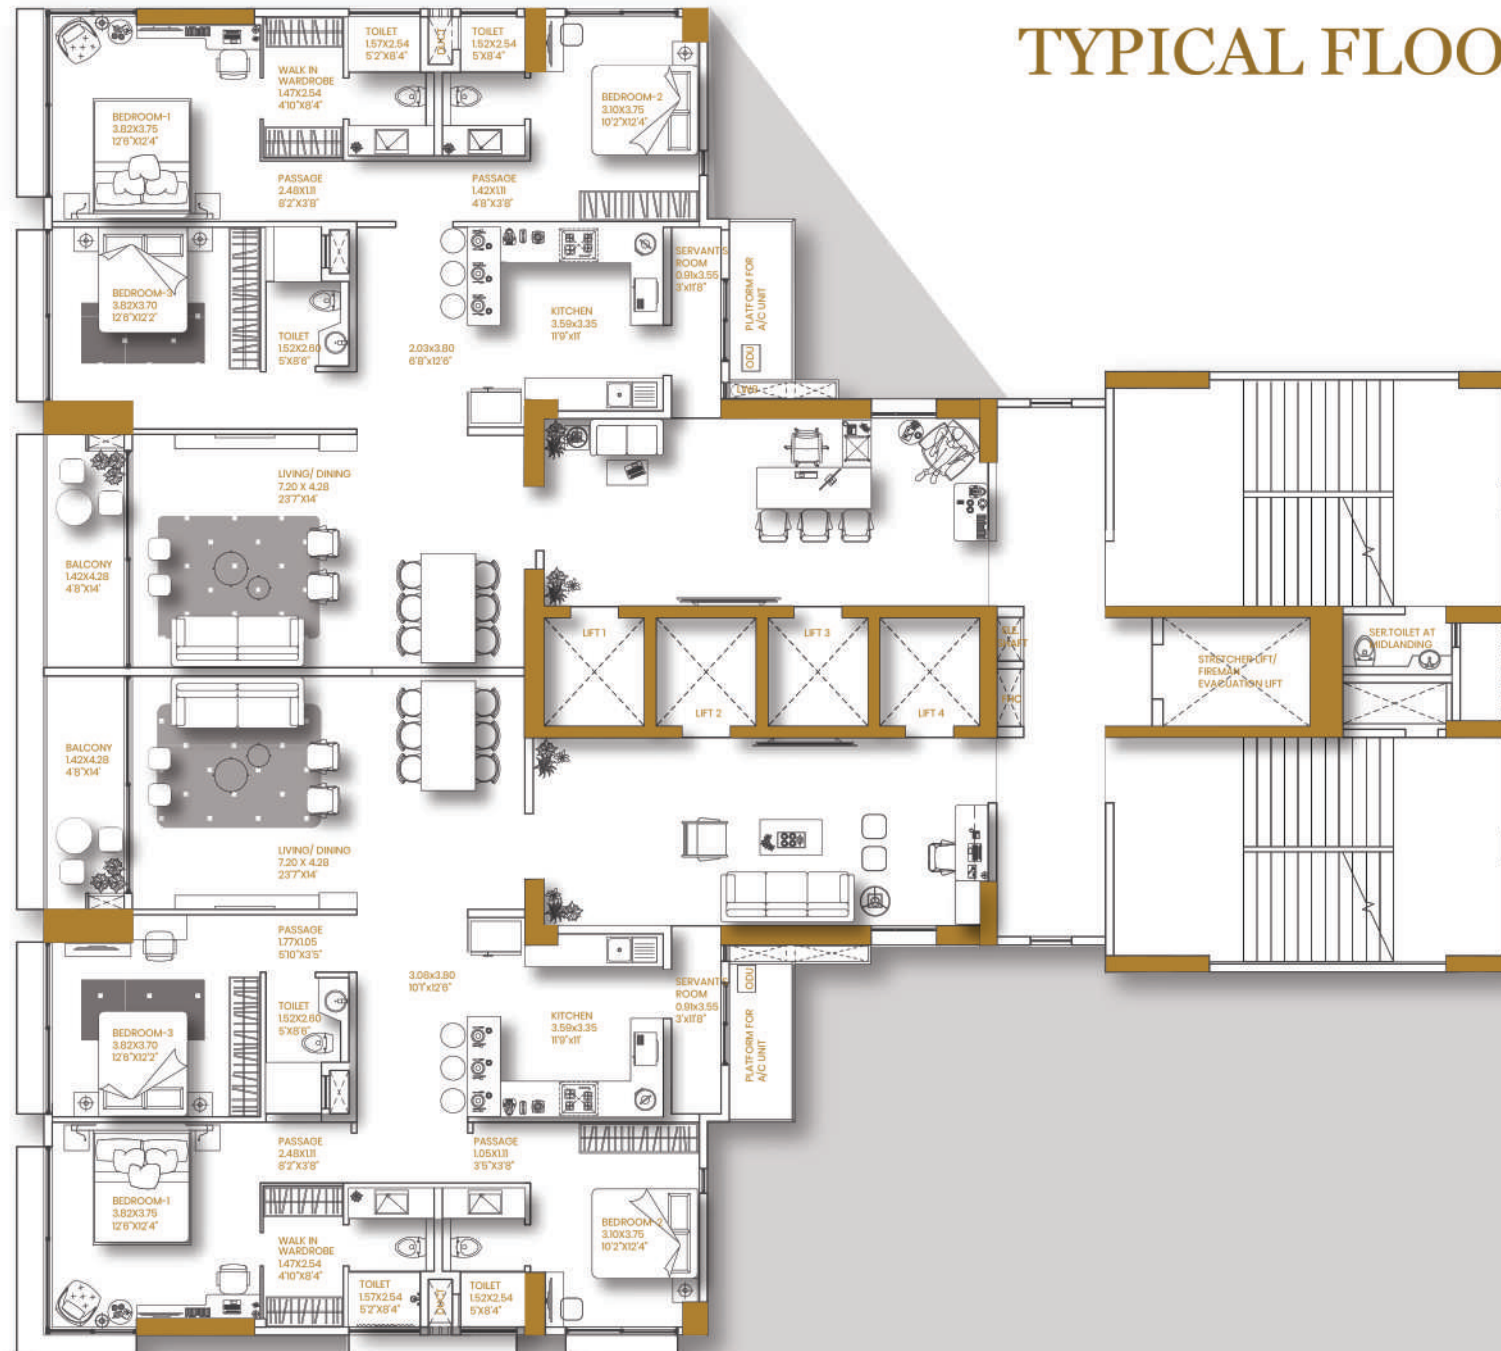

All apartments have private elevators landing area. This space is versatile and can be converted into a WFH office/studio or even a holding area for personal use so that you can restrict access for outsiders to family spaces if needed

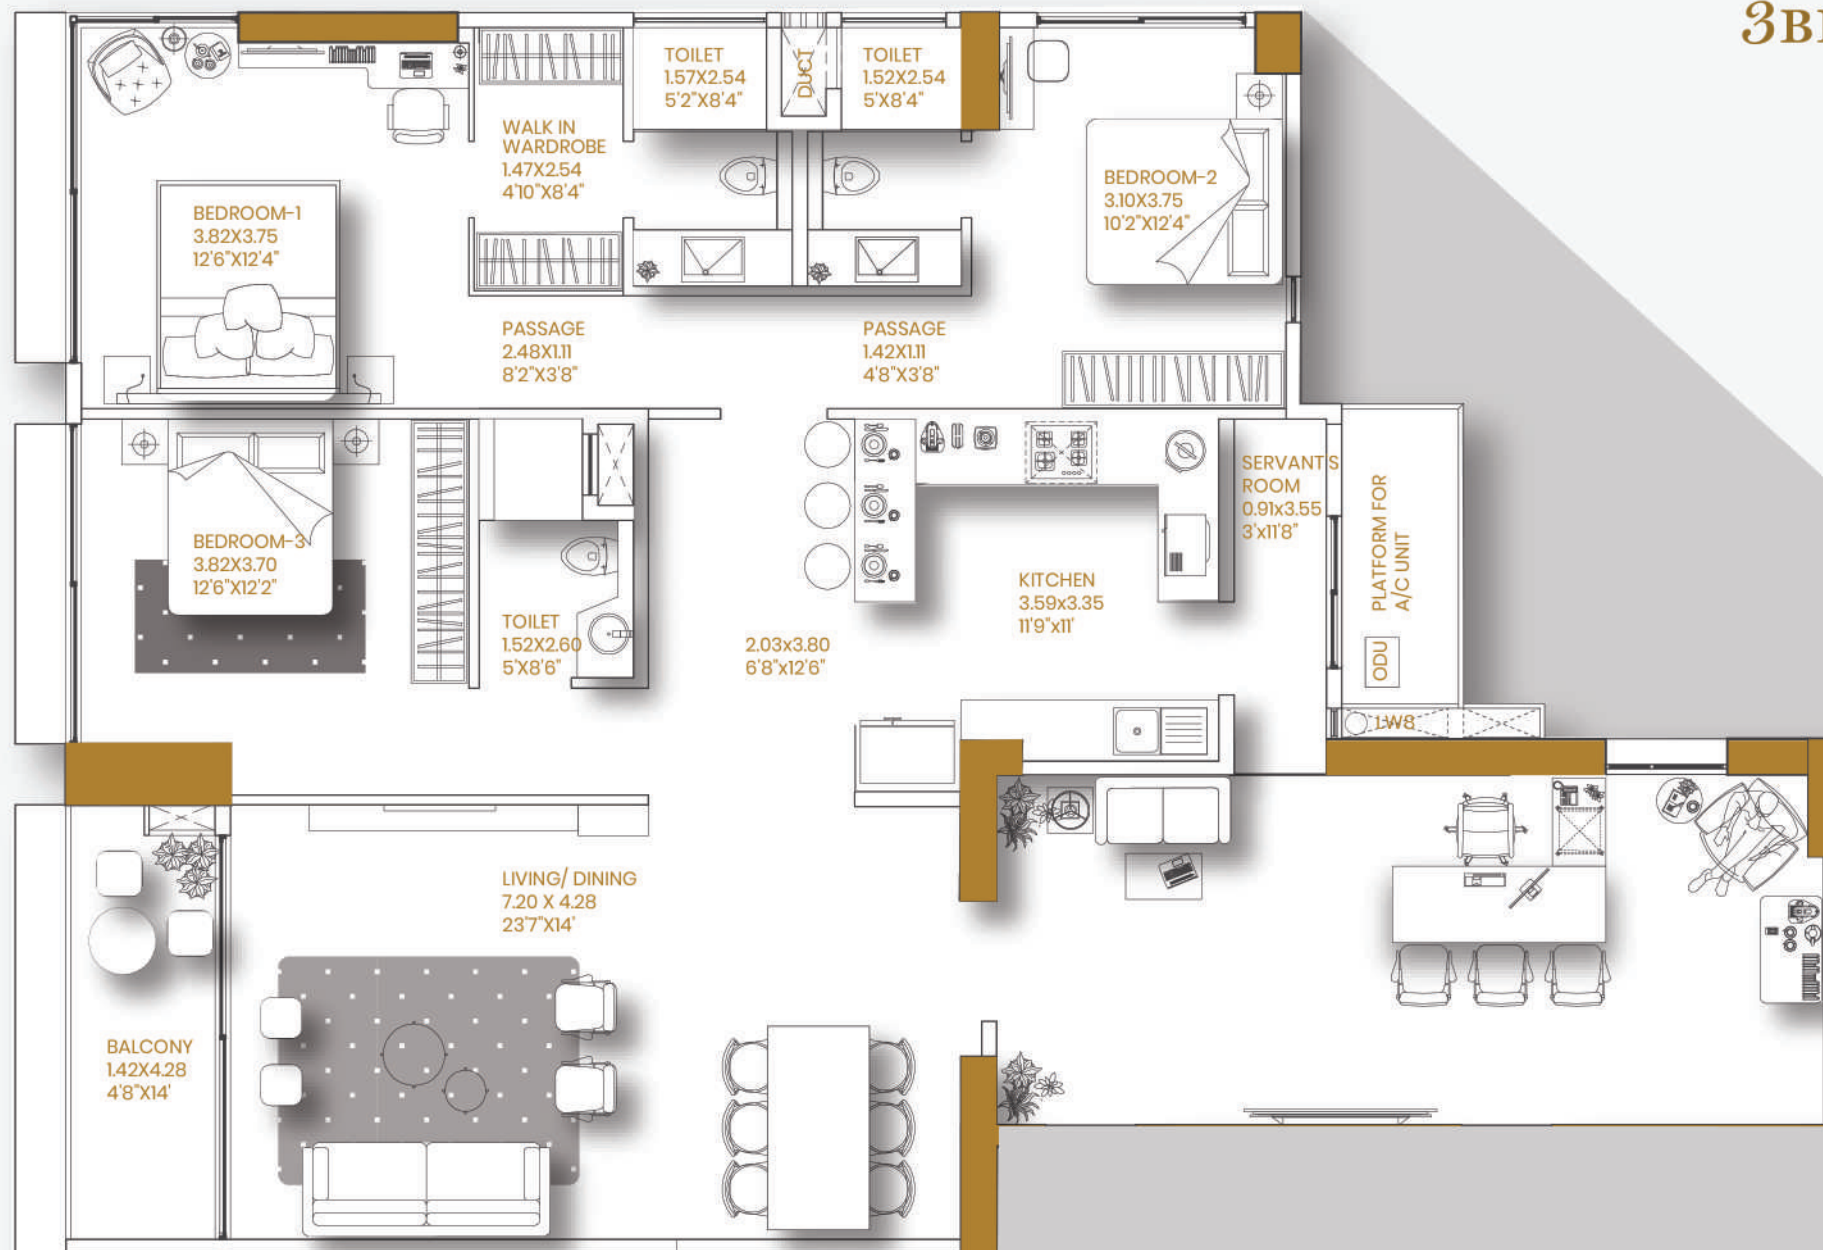

GET THE FEELING OF SPACE

The bedroom layouts have been designed to give you a 360-degree view of the outside world, while the L-shaped design of glass windows give you a floating cloud kind of feel
